With over 4 years of experience, I have built secure and scalable fullstack applications. Proficient in React, Next.js, Redux, Express, MongoDB, and Node.js, I optimize performance and ensure data integrity. Notable achievements include reducing server load by 40% and improving response times by 30%, enhancing user experience, and cost savings.

PROJECTS

foma-commerce

<https://github.com/fomativeh/foma-commerce>

- Engineered a secure and scalable e-commerce backend using Express.js and MongoDB.
- Implemented role-based access control for enhanced security and user management.
- Enhanced user experience with shopping cart, wishlist, and product review, vendor account, order creation and admin functionalities.

foma-weather

<https://fomaweather.vercel.app>

- Improved user retention by developing a visually pleasing UI with React and Tailwind.
- Enhanced user experience by dynamically displaying related search results and a map view.
- Incorporated Unsplash API, locationIQ API, and openweathermap API, offering a dynamic web app functionality.

WORK EXPERIENCE

Rurblist • Delta, Nigeria • Full-time

I developed REST APIs for a real estate web application, ensuring robust security with role-based access control and JWT authentication. Realtors could post properties, manage profiles, and engage with buyers/renters securely through chat functionalities, contributing to streamlined transactions and enhanced user experience.

Backend developer

SKILLS

Technical Skills: Authentication, Authorization, CSS, Divi, Express.js, Firebase, Git, Github, Html, JavaScript, MongoDB, MySQL, Nest, Next.js, Node.js, PostgreSQL, React.js, Redux, Tailwind, Testing, Version Control

Soft Skills: Communication, Creativity, Problem-Solving, Team Collaboration, Time Management

EDUCATION

Bachelor of Sciences in Computer Science

Federal University of Petroleum Resources • Delta, Nigeria • 10/2018 – 10/2023
