WORK EXPERIENCE

FE - Software Engineer Enke Systems

04/2021 - Present

USA

Fully designed and developed project from the scratch to ensure the best performance and flowless user experience. For that the most cutting edge technologies are used, like **React.JS**, **TypeScript**, **Redux Toolkit**, **React-Hook-Form**, **MUI** and so on... Also contributed to a project where refactoring was essential to enhance code quality and maintainability. Collaborated with the development team to identify and address areas of codebase that required restructuring. Successfully optimized critical components, resulting in improved performance and reduced technical debt. Proficiently wrote comprehensive unit and integration tests to ensure the robustness and reliability of the codebase.

FE - Software Engineer Outstream

11/2019 - 06/2021

Vilnius, Lithuania

It was a good experience to be part of a big team, work with strictly set up Scrum procedures and with true professionals on a huge, complex project.
