## **PROFILE SUMMARY**

Dedicated Full Stack Developer with a proven track record in creating innovative, user-centric web applications. Proficient in both front-end and back-end technologies, I excel in collaborative environments, leveraging robust problem-solving skills to deliver exceptional solutions. Adept at translating client requirements into efficient code, my commitment to excellence and effective communication contributes to successful project outcomes. Let's collaborate to build the future together.

## **ACADEMIC PROFILE**

- Masters of Computer Application from Ignou, ("Pursuing").
- Bachelors of Computer Application from Ignou, Delhi.

## **PROJECTS**

### **Personal Portfolio** | HTML, CSS & JavaScript

- I made my responsive portfolio website created by using HTML, CSS & JavaScript. It utilizes server-side rendering to optimize performance and includes detailed descriptions of all my projects.
- The site is designed to be mobile-friendly, ensuring that it can be easily accessed from any device.

### **E-commerce Website** | React Js, MongoDB, Bootstrap

- Developed a responsive e-commerce website using React for the front-end and Node.js/Express.js for the Backend.
- Implemented user authentication, product listings, and shopping cart functionality.
- Utilized MongoDB for database management and integrated payment gateways.
- Admin capabilities included product management and order status updates.
- Developed an e-commerce prototype with user authentication using JWT.
- Ensure a user-friendly experience on various devices (Desktop, tablet, mobiles, etc.).
- Redux toolkit for debugging and monitoring state changes.

### **NewsApp** | React Js, News APIs, Tailwind

- Developed a NewsApp with ReactJS and News API, featuring efficient data fetching.
- Delivered a seamless user experience with real-time content updates, personalized recommendations, and stringent security measures.

## **TECHNICAL SKILLS**

- Static Web Pages Design:- HTML5, CSS3, Bootstrap, Tailwind CSS, Material UI
- Dynamic Web Pages Design:- JavaScript (including ES6+), ReactJS, Redux
- Database Design and Development:- MongoDB
- Server-side Development: - Node.js (JavaScript runtime environment), Express.js (Web application framework for Node.js)
- Language: - Java with DSA (Basic)

## **CERTIFICATIONS**

- I Completed Full Stack Development specialization course from Imarticus Learning.
- Master Diploma in Software Engineer (MDSE from DAIIT)
