FULL (MERN) STACK DEVELOPER

I am a proficient Full Stack Developer specializing in the MERN (MongoDB, Express.js, React.js, Node.js) stack and React Native, with a strong focus on delivering robust and scalable solutions. With extensive experience in both web and mobile application development, I have a proven track record of building intuitive user interfaces and efficient backend systems. I excel in enhancing performance, fostering user engagement, and collaborating effectively with cross-functional teams. My expertise spans developing dynamic applications, optimizing code, and implementing best practices to drive project success and innovation

STRENGTHS AND EXPERTISE

Full Stack Development
Performance Optimization
Strategic Planning

Mobile App Development

Project Management
Problem-Solving
Operations Management

PROFESSIONAL EXPERIENCE

Code Dev Project Manager

December 2023 - Present

I've had the pleasure of successfully delivering numerous projects worldwide. Leading teams across different locations, I ensured projects were completed on time and within budget, earning recognition for our strong project management skills. Managing intricate project demands, I prioritized client satisfaction through clear communication and collaborative efforts.

Metablock Technologies Full stack Developer

December 2022 - December 2023

I've specialized in full-stack development using the MERN stack and have led key projects that streamlined development processes, reduced time-to-market, and improved product quality. My contributions played a significant role in driving company growth and maintaining competitiveness in the market.

Relevel Backend Developer

March 2022 - December 2022
